

# Ultimate Terrain Europe With Lago's Reggio Calabria

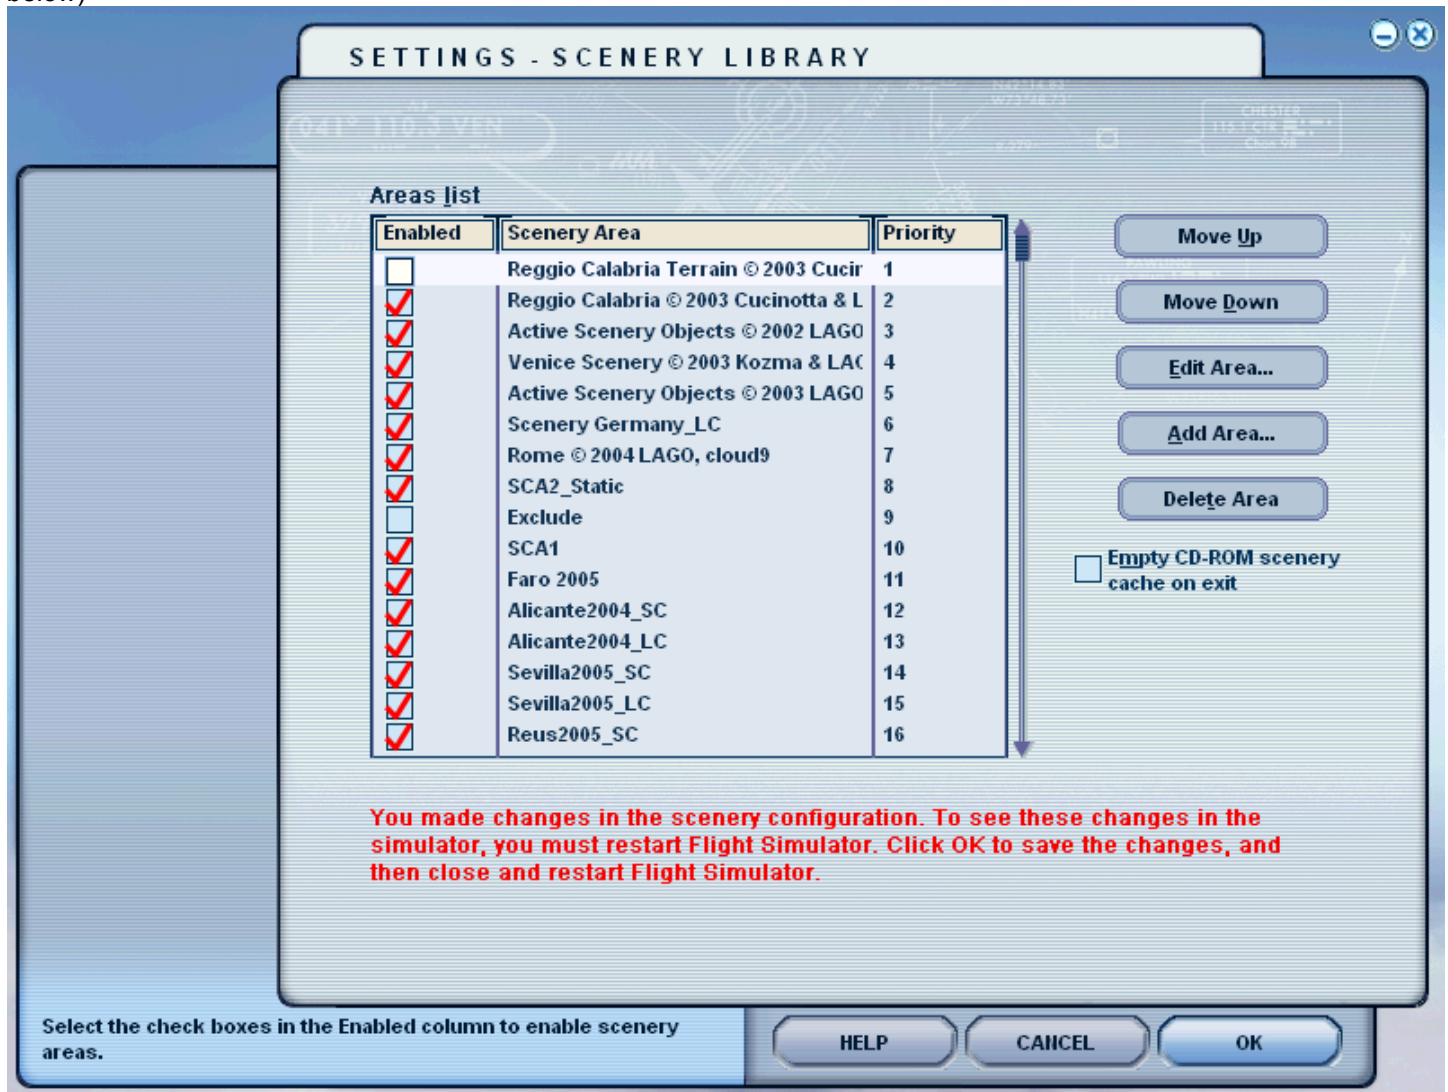

## What This Patch Provides

At this time, a patch is not necessary between UT Europe and Lago's Reggio Calabria. However, there are some things you should do in the FS2004 Scenery Library.

## Disable The Reggio Calabria Terrain

After installing Reggio Calabria, you will get 2 scenery areas visible in the FS2004 Scenery Library. You should disable the scenery area that appears as "Reggio Calabria Terrain". This will remove conflicting vector scenery features with UT Europe.

If you want to use the Ultimate Terrain Europe scenery instead of the photographic portion of Reggio Calabria, you should drop the scenery area labeled "Reggio Calabria @ 2003" down below the layer "Ultimate Terrain – Europe 5" (not shown below)

After disabling the "Reggio Calabria Terrain" layer, you will get no conflicting features.

## **Visual Anomalies**

The Reggio Calabria packages contains hi-res photographic scenery of the airport region. It will work very well with Ultimate Terrain in most cases.

However, surrounding the photographic scenery, there will be some small gaps which appear as part of the default scenery. This portion is actually part of the photographic image scenery itself, so it cannot be disabled.

Other than the small gaps of what looks like default FS2004 scenery, the Reggio Calabria product will work very well with UT Europe as shown below.

## **Patch Updates**

To check for patch updates, or for additional patches, please visit the Ultimate Terrain Compatibility website at the link below:

<http://scenerysolutions.com/Compatibility/>

## **Patch Support**

This patch has been created by Scenery Solutions. Please do not contact the developer of the addon product in question for help with the patch. If needed, we will try and provide you with product support for the patch at our Ultimate Terrain support forum below:

[http://www.simforums.com/forums/forum\\_topics.asp?FID=19](http://www.simforums.com/forums/forum_topics.asp?FID=19)

We will be glad to try and help you with your patch questions. However, please remember that we will have limited expertise on the 3<sup>rd</sup> party products in question.

## **Acknowledgements**

Scenery Solutions and Flight One would like to thank Lago for their cooperation with the patch process.
